Tools Required: Flathead screwdriver, Phillips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.

Light Source: (3) G9 40W Maximum(Not Include).

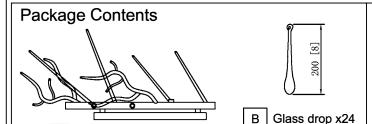

Estimated Assembly Time: 15-30 minutes

Preparation: Identify and inspect all parts before beginning installation. Check package content list and diagrams below to be sure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.

★ Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt. These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal.

Supply Wires with

STEP 3 - Fit Backplate to Mounting bracket Assembly

A. Fit the backplate to Mounting Screws (DD) and secure with Cap nut (AA). Note: The backplate should be snug against the ceiling and the Cap nut (AA).

If not, adjust the length of the Mounting Screws (DD) by unscrewing the Hex Nut and Lock Washer and then screwing Mounting Screws (DD) in or out of the Mounting bracket (EE) until the correct length is achieved. Once the backplate is secure, remove the Cap nut (AA) and backplate

and proceed to Step 4
