

SAFETY INSTRUCTIONS

1. Do not use outdoors. 2. Equipment should be mounted securely in locations and at heights where it will not be readily subjected to tampering by unauthorized personnel. 3. Do not mount near gas or electric heaters. 4. Cap unused wires with enclosed wire nuts or other approved method. 5. Do not use this equipment for anything other than its intended use. 6. The use of accessory equipment not recommended by the manufacturer will void product listing and warranty and may cause an unsafe condition. 7. Use caution when servicing batteries. 8. Any service on this equipment should be performed by qualified personnel only. 9. Make sure wire terminations are secure and leads are properly tucked in appropriate wire channels. **CONSULT A QUALIFIED ELECTRICIAN BEFORE INSTALLING**

Caution:

Disconnect AC power before servicing and installation. All electrical connections must be in accordance with NEC/CEC or your local code.

V-HOOK INSTALLATION

1.

For V-hook mounting, install the stainless steel V-hooks into the four provided mounting straps on the fixture. Cable or chain is attached to the V-hooks (cable or chain is ordered separately or provided by others).

SURFACE MOUNTING INSTALLATION

1.

Install the mounting brackets to the facility mounting points 43" apart as shown in Figure 2.

2.

Insert the long screw into the mounting bracket and secure it.

DRIVER AND WIRING ACCESS

1.

Remove the lens by supporting the lens with one hand and releasing the 12 latches with the other hand. Once all latches are detached removed lens. Place aside.

2.

To open the gear tray, support the LED tray with one hand and with the other hand push the LED tray latch at one end outward to release the LED tray. On the same side but opposite end of the fixture, support the LED tray with one hand and push the LED tray latch outward to release. Slowly lower the LED tray, it will hinge on the remaining LED tray latches..

3.

Make the electrical connection to the fixture in accordance with your local electrical code.
