

ELX-629

Remote Capable LED Exit Sign With Battery Back-Up 11W

Architectural

Catalog Number:

Project Name:

Type:

Note:

MAXILUME
ARCHITECTURAL LIGHTING

FEATURES

This fixture is an excellent choice when fast installation and an attractive appearance are priorities. Its long-lasting LEDs consume less than two watts of energy and are rated for a life of up to 25 years. If AC power is lost, the fixture provides at least 90 minutes of illumination and will automatically recharge after discharge. The operation of this product can easily be monitored and controlled with the use of a conveniently located test switch that indicates charge and diagnostic state.

BODY

- The thermoplastic housing of the product makes it corrosion-proof and scratch-and impact-resistant.
- UV-stabilization prevents discoloration of the product.
- Every fixture includes a canopy, extra faceplate, and replaceable chevron directional indicator knockouts for control of direction.
- Components shaped by precision injection molding and has 1/2" knockouts for the supply of power.

FACE

- Single or dual configuration. Solid face included if single face appearance is preferred
- 6" high text with color diffusion
- Knockout directional chevrons

ELECTRICAL

- Consumes only 2 watts of power
- Long-lasting LED sources
- LED lights continue to function while the battery is working
- 120V or 277V dual input with battery back-up

BATTERY

- Nickel Cadmium, or Ni-Cad, battery
- Internal solid-state wiring for charging purposes
- Indicator light reflects high-Charge and ready operation
- Testing button
- Automatic reset
- Safeguarded against short circuits and brown-outs
- Disconnection is necessary for full discharge

LIFE SPAN

- LED and PC circuits have a rating of about 25 years without a drop in illumination

LISTED

- UL 924, NFPA, NEC, State & Municipal
- Damp location approved
